15. Supplementary Notes Project performed in cooperation with the Texas Department of Transportation and the Federal Highway Administration. Project Title: Roadside Crash Testing Program for Design Guidance and Standard Detail Development URL: http://tti.tamu.edu/documents/0-5210-2.pdf					
Abstract Texas Department of Transportation desires to adopt a new multiple-mailbox mount design that provides improved ease of installation and maintenance. Shur-Tite® has developed a design that is considered to provide the desired ease of installation and maintenance. Two full-scale crash tests were conducted to evaluate the safety performance of the Shur-Tite® multiple-mailbox support in accordance with <i>NCHRP Report 350</i> . The Shur-Tite® Multiple-Mailbox Mount design successfully passed all requirements of <i>NCHRP Report 350</i> and is ready for field implementation.
