

SHUR-TITE® CTB “Cup Mount” Mount Delineator Specification

Part # - SC1408

Part # - SC1417

- 1.] The SHUR-TITE® CTB Mount Delineator is a field proven, 8” or 17” tall, impact resistant recycled composite material delineator for mounting on concrete traffic barriers.
- 2.] Posts are manufactured utilizing no less than 70% recycled materials.
- 3.] Bright white exterior material of post incorporates a premium UV inhibitor package to resist harmful effects of the sun.
- 4.] Bright white finish of post is extremely smooth to resist road grime and mildew. The white finish is highly visible when most needed in low-light and poor weather conditions when headlights might not be in use.
- 5.] Top of post to be permanently sealed and partially flattened, transitioning to round which affords 360 degree visibility and provides structural integrity.
- 6.] The structural integrity of the SHUR-TITE® CTB Mount allows it to hold up to wind, snow plow windrows and the rigors of highway use.
- 7.] The receptacle is a strong, HDPE White Cup with 2 side holes and 1 center hole to be attached with the supplied 2ea - 1/4” nail rivet concrete anchors. It can be attached with either 1 anchor in center or 2 anchors in sides. The HDPE Cup is also designed with the option to be epoxied to the surface.
- 8.] The HDPE Cup is designed to also accept our proven Shur-Flex Insert for a self-righting CTB Mount Delineator.
- 9.] The top flattened portion of round post can accommodate 3” x 3” (SC1408) or 3” x 12” (SC1417) reflective sheet on both sides.
- 10.] SHUR-TITE® Products provides a Factory Representative for training on initial installations to assist DOT crews or Contractors. This training helps the DOT insure State Standards are met and manufacturer’s recommendations are abided by.
