Certification of Compliance: MASH Category 1 Device

The **SHUR-TITE®** Concrete Traffic Barrier “Cup Mount” Delineator; **#SC1408, #SC1417**; manufactured by SHUR-TITE® Products consists of an 8” or 17” tall delineator post fixed with a 1-5/8” tall x 5” Diameter White HDPE cup. This light weight concrete mounted delineator is certified to comply with the crash requirements of MASH, 2nd Edition Category 1 Traffic Control Device.

Certified compliance is based upon the definition of small, lightweight channelizing and delineating devices as described in the FHWA memorandum related to policy of acceptance.

The SHUR-TITE® Concrete Traffic Barrier “Cup Mount” Delineator is certified to comply with the FHWA memorandum as follows:

1. The first category contains those small and lightweight channelizing and delineating devices with no attachments that have been in common use for years and are known to be crashworthy by crash testing of similar devices or years of demonstrably safe operational performance.
2. The device is allowed based on the developer’s self-certification if the device:
 - A. is built to a specification for a device for which the crashworthiness has been validated by crash or surrogate testing, or
 - B. is a type of device that is being accepted as being crashworthy on the basis of crash test experience with similar devices or years of demonstrably safe operational performance.

The SHUR-TITE® Concrete Traffic Barrier “Cup Mount” is comprised of the Shur-Tite Delineator post that has proven its safe operational performance through years of extensive field service.
