IronGrip Guardrail Delineator

FEATURES

- **Flexible Hinged Design** - Engineered to flex upon impact & return to its original position, helping protect the reflector from damage.
- **Secure Guardrail Grip** - Hinged design provides a strong, secure fit to steel guardrail posts.
- **High-Visibility Reflective** - Available in one- or two-sided configurations using 3M High Intensity Prismatic reflective sheeting for enhanced day and nighttime visibility.
- **Impact-Resistant Performance** - Flexible construction helps withstand incidental impacts & demanding roadside conditions
- **Quick, Easy Installation** - Adhesive-mounted design allows for simple installation without drilling or additional hardware.
- **Made in the USA** - Manufactured domestically for dependable quality & performance

SPECIFICATIONS

- **Reflective Sheeting** - 3M 3930 High Intensity Prismatic (HIP) or 3M Diamond Grade DG3 4000 Type XI
- **Reflector Configurations** - One-side or two-sided
