

SHUR-CURB® TRAFFIC SEPARATOR

SHUR-CURB® Traffic Separator

- 1.] The SHUR-CURB® Traffic Separator incorporates a round post capable of taking impacts omni-directionally and is MASH accepted. Post is self-righting and is designed to withstand multiple impacts; providing a long lasting, extremely durable products requiring little field maintenance.
- 2.] The SHUR-CURB® is designed with exterior strengthening ribs so that the underneath of the curb is not hollow, which eliminates broken curbs. The curb has ramped ends which eliminates the need for separate end pieces. This design allows for the curb to be attached to the road surface utilizing the 6 supplied anchors. This design allows for maximum hold down efficiency.
- 3.] Each 40" SHUR-CURB® has 2 ea. - 3M raised pavement markers installed on the top of the curb for maximum reflectivity at night.
- 4.] The Separator is comprised of 2 components, allowing for easy change-out of either part if necessary. These components include a 40" long curb with a 1-3/4" square receptacle and 6 ea bolt holes, and a round flexible delineator post which accommodates 3" X 12" reflective wrap(s). This allows for maximum nighttime visibility and traffic channelization.
- 5.] Post and curbs are manufactured from Urethane and HDPE.
- 6.] Bright White and Yellow exterior material of curb and post incorporates a premium UV inhibitor package to resist harmful effects of the sun.
- 7.] Bright finish of posts and curbs are highly visible when in low-light and poor weather conditions when headlights might not be in use.
- 8.] Top of post is round which afford 360 degree visibility.
- 9.] The square to round flexible post is a simple one piece, non-mechanical, molded design assuring long-life in severe corrosive environments.
- 10.] Special tools are not required for change-outs.
- 11.] Post replacement, if required will take less than 60 seconds utilizing our quick release 3/8" x 3" pin with detent ball, minimizing the field technician's exposure to traffic, a key safety issue.
- 12.] SHUR-TITE® Products provides a Factory Representative for training on initial installation to assist DOT crews or Contractors. This training helps the DOT insure State Standards are met and manufacturer's recommendations are abided by.
